**Nevada Career Institute Ranked as One of the Top 24 Colleges in Nevada**  
*Intelligent Names NCI Most Flexible College in the State*

LAS VEGAS, Nevada—Intelligent.com recently released its rankings of the top 24 colleges in the state of Nevada, with Nevada Career Institute (NCI) earning the 18th spot. Rankings were evaluated based on flexibility, faculty, course strength, cost, and reputation, with each college receiving a score out of 100. Nevada Career Institute also received the distinction as the Most Flexible College.

Jason Altmire, President and CEO of Career Education Colleges and Universities, offered his congratulations on NCI being named one of the best schools in Nevada. “It’s well deserved recognition of the tremendous work Nevada Career Institute’s team does every day in improving the lives of students,” Altmire shared.

Intelligent’s goal is to distill the abundance of information available on colleges into manageable lists, providing bias-free rankings of colleges and schools across the country. They base their research on institution size, cost, and course delivery method, explaining, “Our top picks for the best Colleges In Nevada are affordable, respected, and flexible.”

Nevada Career Institute has been committed to equipping students to succeed through quality programs since its founding. NCI also understands the challenges of juggling work, family, and going to school. That’s why the institute offers flexible schedules with day and evening classes, so students can choose what’s right for them. Combine that flexibility with NCI’s hallmark hands-on approach to learning, and students have a program that enables them to hit the ground running in the health care field.

“We are honored by this recognition,” shared NCI President Mitchell Fuerst. “It’s a testament to NCI’s unwavering commitment to seeing lives changed through the power of quality career education programs. And we know our graduates will carry that same commitment with them as they make a difference in the communities they serve every day.”
